LIVE CONCEPT

GOLDILOCKS

Since 2012, **Nephra** has been a Hyderabad-based DJ, producer, and curator who builds the room before most people notice it exists. Her sets read like fiction: *deep grooves, melodic tension, and the long patient build* of a floor finding itself.

House, tech house, disco, techno — held together by a producer's ear and a storyteller's instinct. Over fourteen years she has played from **Magnetic Fields Festival** and **Sunburn** at home, to **Amsterdam Dance Event** and **New York City** abroad.

Broadcast sets land on Pioneer DJ Radio, Frisky Radio, Boxout.fm, and NYC's famous **The LOT Radio**. In 2024, **Mixmag** spotlighted her among the artists defining India's new wave underground.

In 2025 she stepped further into production with two original releases on **Natural Rhythm** — a respected Romanian underground label — pairing disco-inflected warmth with hypnotic, architectural rhythm.

Her ongoing project *Goldilocks* is a curated Disco-House mix series and live concept — bookable as a residency or one-off event.

COVERAGE

— SOUND & INFLUENCES

House to *techno* — warmth into weight.

Nephra moves *fluidly* across the spectrum: from disco-flecked house and tech-house grooves into deeper, more architectural techno.

Her record bag carries the warmth of *Marshall Jefferson* and the long patient build of *Enrico Sangiuliano* — a sound rooted in story, designed for floors that listen.
